## /// EXPERIENCE

### **Tower Energy Group**

*Web Designer*

{ March 2011 - Present } **TORRANCE, CA**

Conceptualized, designed, and built front-end interfaces for internal and external web based systems used by corporate employees based in Torrance and Sacramento, CA. Worked with an ASP.NET/C# programming team in a team-based environment to achieve web project goals.

### **The Media Imaging Company, Inc.**

*Graphic & Web Designer*

{ March 2010 - December 2010 } **NORTH HOLLYWOOD, CA**

Designed for a multitude of projects and worked first-hand with a small team of programmers and designers. Work included front-end UI work for Agent Control, a web-based system for Real Estate Agents including a control panel and website templates for agents to use. Worked on projects for clients including Warner Bros. and The Walt Disney Company, which also involved art for 3D object displays for WB's "DisplayBuilder."

### **Freelance Web Designer**

*Web Designer*

{ January 2008 - Present } **TORRANCE, CA**

Designed and coded a multitude of websites for a variety of different clients from Interior Designers to Photographers and small businesses. Ongoing work for the music venue production company Interact Live involving web design and code of a wordpress based website with show archives, blogging functionality, comment systems for exclusive media vaults, and more. Worked with design firm GVS Studio for projects including style frames for FOX TV's Master Chef, as well as web design for the community development company "Wood Partners."

### **Swipe Payment Solutions, Inc**

*Print Designer; Temp Position*

{ February 2010 - March 2010 } **LOS ANGELES, CA**

Laid out and prepared document templates and design of various credit documentation and forms to create paperwork "packages" given to new Employees and Clients of Swipe Payment Solutions, Inc.

## /// EXPERIENCE (cont.)

### **Animax Entertainment (<http://www.animaxent.com>)**

*Graphic Design Intern*

{ August 2009 - October 2009 } **VAN NUYS, CA**

Worked to develop and prepare files for flash games including interface and game designs, while creating and preserving proper file naming conventions and other considerations for flash actionscript programmers.

### **Office of Student Development, CSUDH**

*Graphic Designer*

{ October 2008 - June 2009 } **CARSON, CA**

Responsible for conceptualization and execution of promotional materials for student events, as well as preparing files for print, cleanup, and resizing. Worked with deadlines and set work priorities to execute projects on time. Was required to think creatively and pragmatically to solve visual and typographical problems in a timely and efficient manner. Project results had to fit specific demographics, styles, and color schemes to be most effective for their medium and for the event with which they were associated.

### **Leadlink LLC**

*Web Designer; Independent Contractor*

{ January 2008 - December 2008 } **CARSON, CA**

Responsible for front-end website development and design, as well as general marketing strategies and brainstorming interface ideas. Worked in a team-based environment to create "Web 2.0" solutions with revolutionary interface features and usability. Worked directly with a back-end programmer to bring to life interface designs based around jquery and javascript functionality.
